- Innovated an imageKit wrapper for shisha.com (AIR Global) to efficiently cache user-generated images during ETL processes.
- Built scalable backend workflows by integrating WordPress with serverless AWS functions and UI/UX updates.
- Streamlined the shisha.com data extraction and management pipeline for consistency and reliability.

Software Development Engineer I

Jul 2025 – Jan 2026

- Designed and developed a sustainable Azure-based ETL pipeline for shisha.com with Python.
- Built full-stack features in Next.js, contributing to end-to-end development across frontend and backend systems.

Nokia, Bangalore (On-site)

SWE Trainee

Sep 2024 – Jun 2025

- SLNBI - MantaRayNM testing and performance checks using Robots, NAPET, Python, Shell scripting, and Jenkins.
- Integrated Graylog for log monitoring and resolved SONARQube violations for QA purposes.

HyperVerge, Chennai (On-site)

Nexus Spring '24 ML Trainee

Feb 2024 – Jun 2024

- Worked on planning and designing a pipeline for fine-tuning the Llama 2-7B model, specialising in Python problem-solving using PEFT methods.

Bornbhukkad (Remote)

Machine Learning Engineer

Sep 2023 – Apr 2024

- Implemented food engineering principles to analyse scraped restaurant reviews using transformer-based models.

EDUCATION

Master of Science: Artificial Intelligence Engineering

Universität Passau, Passau, Germany

Courses: DL for Natural Language, Network Science, Digitisation with AI, DL in Finance, Reproducibility Engg.

Bachelor of Technology: Artificial Intelligence

SRM Institute of Science and Technology, Kattankulathur, India (CGPA: 9.62/10)

Achievements: Won Merit-Based Scholarship (AY: 2022-23, 2023-24 and 2024-25).

Courses: OOPs, DSA, DL Techniques, ML, Computer Networks, GenAI and LLMs, Node.js and React.js.

PROJECTS

- **Protego:** A crime-awareness dashboard with contextually tuned engines for victim support recommendations along with crime rate analysis. Tech Stack: Python, NLP, Fine-tuning, Time-series analysis, LLMs, Transformers.
- **MoodMate:** A buddy to talk and guide you. This bot uses prompt tuning to understand your feelings and get you the right help. Tech Stack: Python, LLMs, NLP.
- **CareerWise:** Built to assist secondary-level students with career choices. Tech Stack: Dart, Python, ML.
- **Rare Word Summarizing:** Identifying only rare words in a text to create a summary. Tech Stack: nltk, TF-ID.
- **Fine tuning LLMS:** For Python problem-solving by fine-tuning Llama 2-7B model. Tech Stack: LLMs, nltk.

ACCOMPLISHMENTS

- Microsoft Code; Without Barriers '24 Winner.
- Qualified for the third round of Smart India Hackathon (SIH) '23.
- Published papers: Crime Awareness Dashboard with Contextual AI Tuning Engine - Protego, Mental Health Support Chatbot.

ACTIVITIES

- Supporting AYCD: Ubuntu Mondo in international student engagement, social media management, event coordination, and website migration initiatives.
- Served as a helping hand to Don Bosco, SHP, Pune youth through posters, Informatica, and fundraising events.
- Mentored a tech-driven community - GitHub Community SRM.
- Volunteered as an ML researcher at Maiti Labs to build sustainable models.
- Open-source contributor in Social Winter of Code (SWOC) '24 and Social Summer of Code (SSOC) '24.
- Supported underprivileged education efforts as a Crowdfunding Intern at Muskurahat Foundation.
